PROFESSIONAL SUMMARY

Educator and learning designer with more than six years in English-language teaching, curriculum development, and academic program coordination, plus graduate training in clinical psychology. Founder and maintainer of two live educational platforms, WillSpeak English and Healthy Little Minds. Takes digital learning products from concept to production: defining requirements, structuring content, directing AI-assisted implementation, testing, and deployment. Combines an understanding of how people learn with research skills and clear documentation.

PROFESSIONAL EXPERIENCE

Independent Education & Digital Product Projects

2024 — Present

Founder · Learning & Product Designer

Design, build, and maintain educational web and mobile products, from learning design and specifications through AI-assisted implementation, testing, documentation, and deployment.

- **WillSpeak English** · **Live** — English-learning platform with structured learning paths, curriculum systems, and Lesson Studio, a lesson-authoring tool whose content and associated data are managed in Supabase.
- **Healthy Little Minds** · **Live** — Multilingual emotional- and psychological-literacy platform and installable web app (PWA), with educational resources and interactive tools in five languages.
- **WillSpeak Kids** · **In development** — Children's English-learning app built with React Native (Expo) and TypeScript, with structured activity logic and Jest-based automated testing and regression checks.
- **Humanly** · **In development** — Psychology-learning app organized around three modes: Understand, Study, and Practice. Strictly educational; it does not diagnose, assess, or treat psychological or mental-health conditions.
